April 1, 2018

Dear Parents of Sixth Graders:

Please be advised that in September 2018, all public and private school students **entering seventh grade** in New York State must be **vaccinated** against **meningococcal** disease in order to attend school. In addition, they are **required by law** to submit evidence of having had a **current physical exam, including immunizations**, done within the past year (dated October 2017 and thereafter). We are requesting a **dental certificate** as well.

All physical exams and immunization records are due October 1, 2018. You may send them to us at the above address any time before this date.

Sincerely,

Eileen Egan
